

ANDERSON COUNTY OFFICE OF THE CORONER

2025 ANNUAL REPORT AND 2026-2027 BUDGET REQUEST

ANDERSON COUNTY OFFICE OF THE CORONER

GREG L. SHORE D-ABMDI

CORONER

301 CAMSON ROAD

ANDERSON SC 29625

To the Anderson County Council and the Citizens of Anderson County,

First, as always let me thank you for the privilege of serving you as your Coroner. It has been an honor to service our community over the past year. I am proud of the improvements in my office and the service that we have provided.

I would personally like to thank the Anderson County Administration and the Anderson County Council for your strong support of my office, for without you we would not have accomplished many of our goals and/or successes like our Drug Awareness Program and our ongoing project of Accreditation.

I would also like to offer my condolences to all families in Anderson County that have suffered a loss this year. The death of a loved one is one of the most traumatic events that a family will endure. The trauma is only compounded when the death is not investigated by compassionate and professional staff. My staff will continue to strive to provide the best service to our community that is available.

We as a community must remember that the information contained in this report represents a loss to a family and to our community. To you, this report is a look at the operations of our office and the death statistics of our county. However, never lose focus that these numbers represent losses to our community and tremendous sadness for families.

Enclosed are the Anderson County Office of the Coroner 2025 Annual Report and our 2026-2027 budget request. This report provides a summary and statistical analysis of the deaths investigated by the Anderson County Office of the Coroner and reports completed by my investigative team.

As our population continues to grow, so will our deaths and those deaths will require the services of my office. I can assure you and the citizens of Anderson County we are prepared for the task.

If you need any clarification on any part of this report and/or our budget requests, please feel free to contact me. I look forward to continuing to serve you as your Coroner.

Sincerely,

Greg L. Shore

Greg L. Shore, D-ABMDI
Coroner

Mission:

“Our mission is to maintain the highest standards of professionalism and integrity in the field of Medicolegal Death Investigations and in accordance with the standard established by the American Board of Medicolegal Death Investigators. We are committed to determining the cause and manner of death in an accurate, timely, dignified, and compassionate manner while maintaining respect for the grieving families and the citizens of Anderson County.

We identify the deceased and notify the next-of-kin, regardless of where they may live, while ensuring that the deceased and their property are treated with the utmost respect and dignity. We accomplish our mission through the use of a forensic pathologist, consultants, and other methods of inquiry. We are an independent finder of fact in a manner prescribed by law.

Together with education, consultation and research through the medical, legal, academic, and law enforcement communities, the Anderson County Office of the Coroner is committed to this mission statement.

“WE REPRESENT THE LIVING, BUT SPEAK FOR THE DEAD”

SERVICES PROVIDED:

- The Anderson County Office of the Coroner consists of a team of experienced medicolegal death investigation professionals consisting of an elected Coroner; four Deputy Coroners, one full time Medical Examiner, an Evidence Technician, and an Administrative Assistant.
- Working in a spirit of cooperation and communication with local law enforcement as well as other interested parties, this team has raised the standard of death investigations to a new level of excellence here in Anderson County as well as in the State of South Carolina.
- Aside from investigating deaths, the Anderson County Office of the Coroner provides education lectures and presentations to police, fire, and emergency service personnel on both local and statewide levels.
- The Anderson County Office of the Coroner also provides lectures and safety presentations to various community and civic organizations.
- The staff of the Anderson County Office of the Coroner is dedicated to exercising their duties with care, compassion and understanding towards families in a difficult time of need.
- Members of the Anderson County Office of the Coroner serve on numerous committees including the Child Fatality Committee, Traffic Fatality Committee, Safe Kids Committee, and various others.
- The Anderson County Office of the Coroner has three functional areas of responsibility:

1. **MEDICAL** – Review medical records, perform appropriate testing and authorize autopsies to determine cause and manner of death, which falls within the jurisdiction of the Anderson County Office of the Coroner; arrange transport and removal of the decedent; and sign death certificates.
2. **ADMINISTRATIVE** – Maintain all records of death within Anderson County; respond to inquiries by Law Enforcement Agencies, physicians, and others with potential cases. Provide proper custody and security of valuables, locate families, when necessary, complete written reports and notify other appropriate agencies as deemed necessary. Review medical records, perform appropriate testing and authorize autopsies.
3. **INVESTIGATIVE** – Conduct investigations to determine cause and manner of death and/or establish identity of the deceased; conduct witness and/or family interviews; and appear at all unattended deaths unless circumstances dictate otherwise.

The Anderson County Office of the Coroner is considered an integral component of the death investigation team and operates as the interface between law and medicine. The ultimate responsibility for any death investigation in Anderson County is the Coroner's Office.

In accordance with South Carolina Statute/Law, the Anderson County Office of the Coroner requires notification when any death is due to:

1. As a result of violence.
2. As a result of apparent suicide.
3. When in apparent good health.
4. When unattended by a physician.
5. In any suspicious or unusual manner.
6. While an inmate of a penal or correctional institution.
7. As a result of stillbirth when unattended by a physician.
8. The attending physician is unable or unwilling to certify the Cause of Death.
9. All cases in which trauma may be associated with the death, such as traffic accidents, gunshots, falls, fires, etc. This includes inpatients in medical facilities.
10. Deaths by poisoning, suspected poisoning, chemical or bacterial, industrial hazardous materials or radiation.
11. All industrial accidents.
12. Deaths due to contagious disease.
13. Deaths due to self-induced or unexplained abortion.
14. Operating room deaths and deaths that occur during a medical procedure.
15. All unexplained deaths (death that occur to a healthy individual).
16. All pediatric deaths (less than 18 years of age).
17. Deaths that occur within 24 hours of admission to a hospital or nursing facility.

18. Deaths in the custody of Law Enforcement.
19. Deaths of persons in the Care of a Public Institution.
20. Vulnerable adult as a result of abuse or neglect.

The Anderson County Office of the Coroner must conduct a thorough investigation into any type of the above-mentioned deaths.

The Anderson County Office of the Coroner staff also performs the following duties:

- Pronounce death and determine the time of death.
- Document the scene of death and performing interviews to determine medical and social circumstances.
- Complete photographs of the scene and decedent.
- Collect specimens for analysis and storage.
- Complete various testing (environmental temperatures, drug test, etc.).
- Secure and destroy unused medications.
- Positively identify the deceased with the aid of dental records, fingerprints, and/or xrays.
- Identify next-of-kin and notify family members in a respectful and sensitive manner.
- Request, order and attend autopsies.
- Prepare death certificates and other records once an investigation is complete.
- Provide conclusive information and records to family members, law enforcement, and health care professionals.
- Testify objectively in legal matters.
- Work with County, State and Federal agencies to proactively develop disaster/emergency plans.
- Coordinates the Indigent Cremation Process for Anderson County.

The Coroner's Office is independent, guided by State Statute, working for the deceased and families and not for physicians, hospitals, or other institutions, attorneys, or funeral homes. The coroner respectfully serves the deceased by working with law enforcement agencies and consulting with specialized medical personnel to obtain the truth about their death.

The Anderson County Office of the Coroner will continue to provide the highest standards in medicolegal death investigations. Our office continues to be a leader throughout the state of South Carolina and is contacted daily for assistance.

We know that deaths are inevitable in a growing community and that with population growth you will have more deaths. Our office will continue to adapt to the increase and as always strive to be more proactive in death prevention.

Our office will continue their initiative to provide additional training on:

- **Drug and Alcohol Abuse**
- **Duties of the Coroner**
- **Suicide Prevention**
- **Seatbelt Use**
- **Safe Sleeping for Infants**
- **Texting and Driving**

BUDGET REQUEST FY 2026-2027

CORONER

BUDGET REQUEST BULLET POINTS:

The Anderson County Office of the Coroner requests no increase in their current budget and requests no new personnel and/or capital equipment for fiscal year 2026-2027

GOALS AND OBJECTIVES:

Measure: Maintain 100% of all case records after investigation are completed.

The Anderson County Office of the Coroner was 100% compliant with this objective in 2024 – 2025 FY and will continue to ensure that all death investigations are conducted in accordance with national standards of practice.

Maintain training through continued education that exceeds state requirements and requirements established by the American Board of Medico-legal Death Investigation for death investigations.

Measure: 100% of the Deputy Coroners exceeded state training requirements and the requirement mandated by the American Board of Medicolegal Death Investigators and the State of South Carolina in 2024-2025 FY. The department will continue to exceed the State training requirements and the requirements mandated by the American Board of Medicolegal Death Investigators in 2026-2027.

My office exceeded all requirements for continuing education as mandated by the State and the International Association of Coroners and Medical Examiners. I am very proud to report that three more of my personnel have passed the American Board of Medicolegal Death Investigators and are now Board Certified. This was a great accomplishment and will allow us to continue our pursuit of Office Accreditation.

Measure: Maintain 100% Compliance with all State and Accreditation requirements.

The Anderson County Office of the Coroner was 100% in compliant with this objective in 2025– 2026 FY and will continue to ensure that all death investigations are conducted in accordance with national standards of practice.

Maintain State mandated requirements for Medico-legal Death Investigations regarding evidence preservation.

Measure: 100% compliance is required in this standard. The department was able to meet all the standards in 2025-2026. My goal is to continue to exceed the State and National requirements.

The field of medicolegal death investigation is an ever-changing field and requires that investigators maintain up-to-date knowledge. The increase in death investigation standards necessitates appropriate training and education for my investigative staff.

Therefore, I will continue my goal of ensuring that all staff are appropriately trained and appropriately certified in various aspects of medicolegal death investigation.

All currently certified personnel met requirements for recertification through the American Board of Medicolegal Death Investigators in the 2025-2026 FY. Certified personnel will continue to meet recertification requirements in 2026-2027 FY.

My office continues to maintain a very aggressive public relations initiative, completing a number of public relations talks to area civic organizations and Anderson County schools. A breakdown of our community relations program is outlined in our annual report attached to this year’s budget request. We continue our partnership with Anderson University’s Physician Assistant Pathology Program and have played a key role in the education of these individuals and guiding each student on path towards their career goals.

In the 2026-2027 Fiscal Year, the Anderson County Office of the Coroner staff will continue to attend various training related to death investigations to ensure that we maintain the highest standards possible. This is why we must maintain a very robust education initiative and ensure that our staff are able to attend any training available.

The Anderson County Office of the Coroner secured an Accreditation Grant to assist our office in preparing for Accreditation through the International Association of Coroners and Medical Examiners. We are on the path to complete this initiative this fiscal year. We were initially set to complete the process in fiscal year 2024-2025, However, we suffered some setbacks in our initial plan due to our building needing significant improvements to meet the accreditation standards. It is my goal to complete the Accreditation process by November 2026 and/or sooner.

The Anderson County Office of the Coroner will also continue to foster relationships with various County, State and Federal agencies to ensure the goals of the Anderson County Office of the Coroner are obtainable.

The Anderson County Office of the Coroner continues with the responsibility of maintaining the indigent cremation process for Anderson County. My office, as in the previous year’s continues to see a significant increase in the indigent cases.

The fiscal year 2025-2026 has already processed and completed thirty (30) indigent cremations at the time of this report. I anticipate that by the end of the budget year we will have completed at a minimum of 36 cremations. Total costs associated with the indigent cremations are currently at \$9750.00, which does not count the other associated costs such as plaques and memorial settings.

We still have not received as many families coming forward to claim the remains as we had in the past and therefore, we have not been able to recoup the costs associated with the cremations as we had in the past. We did complete our annual memorial wall dedication with a record turnout of people this year and will continue this practice throughout our 2026-2027 FY.

Performance Measure	Actual 2024-2025	Goal 2026	Goal 2027
Death investigations (workload)	2556	2500	2600
Autopsies (workload)	71	80	95

National standards are continuously changing and for Anderson County to maintain protections from potential liability, national standards must be maintained and will always be the hallmark of my office.

The above statistics do not account for the time that my investigators are making notifications for other agencies across the United States, cold case investigations and/or follow up on current cases. I also anticipate each of these areas to continue to increase.

As you can see my office continues to see a substantial increase in workload and we anticipate more of an increase in the coming year. For the calendar year of 2025, My office processed over 2600 cases. My staff also continues to provide education for various agencies throughout the State and Anderson County. Our request to provide more information on drug deaths and education to Anderson County schools have also increased significantly and our Drug Awareness Program has been very successful and has resulted in a reduction of 50% of our drug deaths.

Our biggest concern right now is the significant increase in Suicides. Calendar year 2025 has seen the highest suicide rate in Anderson County History. I have task our Public Relations Specialist with the Task of getting the message out to the public that help is available. We have been making public notices via Billboards throughout the county and conducting news media interviews to draw attention to this new threat to Anderson County Citizens.

We continue to provide more forensic testing to include additional drug testing, Covid and Flu Testing and have recently began testing decedents for pregnancy.

All specimens for laboratory testing must be sent via united Parcel Services with a return receipt, which has continued to increase our postage fees. Our storage for evidence had to be increased due to the requirement for longer storage requirements and we will continue to require additional security measures.

Our supply costs continue to increase due to increase call volume and increase in overall supply costs. An example is our body bag purchases have increased, and the costs of the body bags themselves have increased again. The costs for drug testing, covid testing, flu testing supplies as well as needles, syringes, etc. will continue to increase.

Our indigent cremations will continue to increase, and I anticipate we will see more and more requests for the county to handle the cremation of individuals in the coming year. I want to thank you for your continued support of our indigent cremation system. This is an extremely important program for the citizens of our county.

My staff will continue to work hard. We are stronger, fully staffed and more committed than ever before to our mission and the representation of Anderson County. As always, I look forward to the challenges in our next fiscal year and believe that no matter what the issue, the Anderson County Office of the Coroner is prepared.

I therefore will not and have not requested any increase in our current budget and will not request any capital equipment and/or additional personnel for 2026-2027 fiscal year.

As always, I would like to thank you for your continued support of my office and my staff, for without your support, we would not be able to perform the job that we do.

Each day my staff represents Anderson County in the most professional manner possible and ensures that our citizens and communities are supported and cared for.

Again, this is only through your tremendous support and confidence in our office that we are able to continue providing the service that our citizens deserve.

Sincerely,

Greg L. Shore
