

Aircraft Maintenance

Welcome to Anderson Regional Aircraft Maintenance. We are an FAA Part 145 Repair Station, and a Cessna Parts Distributor offering discounts and AOG support. We specialize in the repair of single and multi-engine aircraft. Our facility offers major airframe and major power plant repair, annual and pre-buy inspections, Corrosion X treatment, and Amsafe testing and service.

We are proud to announce that we are now offering aircraft maintenance service to Cessna Grand Caravans. We are also capable of doing Pitot Static testing per FAR 91.411 and 91.413 through our Avionics shop.

Please feel free to contact us at **(864) 332-5303** for additional information.

CHRIS MAXWELL

Director of Maintenance
